Citizen Emperor Roderick J. Barman,1999 In the history of post-colonial Latin America no person has held power so firmly and for so long as did Pedro II as emperor of Brazil. This is the first full-length biography in 60 years, and the first in any language to make close use of Pedro II's diaries and family papers.

Avaliação Psicopedagógica Rosa Maria Junqueira Scicchitano,Marisa Irene Siqueira Castanho,2020-08-06 A Comissão Científica da ABPp fez um cuidadoso trabalho para a definição dos temas, a escolha dos autores e a revisão dos textos, visando à produção de um livro que considerasse o exercício da atividade do psicopedagogo como sendo algo intrinsecamente ligado à tarefa de avaliar, mediar e intervir. É um livro acessível a profissionais e estudantes de Psicopedagogia no qual se conseguiu destilar a grande experiência acumulada pelos autores nos seus longos anos de atividades profissionais, mais especificamente na avaliação dos processos de aprendizagem e considerando as diferentes formas e agentes de intervenção psicopedagógica. Esta obra aborda, portanto, um tema fundamental para a compreensão dos recursos mediadores para a avaliação do processo aprendizagem, a aplicabilidade desses instrumentos e a interpretação dos resultados ali revelados.

Nature and Antiquities Philip L. Kohl,Irina Podgorny,Stefanie Gänger,2014-12-04 Nature and Antiquities examines the relation between the natural sciences, anthropology, and archaeology in the Americas in the nineteenth and early twentieth centuries. Taking the reader across the Americas from the Southern Cone to Canada, across the Andes, the Brazilian Amazon, Mesoamerica, and the United States, the book explores the early history of archaeology from a Pan-American perspective. The volume breaks new ground by entreating archaeologists to acknowledge the importance of ways of knowing that resulted from the study of nature in the history of archaeology. Some of the contributions to this volume trace the part

conventions, practices, and concepts from natural history and the natural sciences played in the history and making of the discipline. Others set out to uncover, reassemble, or adjust our vision of collections that research historians of archaeology have disregarded or misrepresented—because their nineteenth-century makers would refuse to comply with today’s disciplinary borders and study natural specimens and antiquities in conjunction, under the rubric of the territorial, the curious or the universal. Other contributions trace the sociopolitical implications of studying nature in conjunction with “indigenous peoples” in the Americas—inquiring into what it meant and entailed to comprehend the inhabitants of the American continent in and through a state of nature.

As historias da Comissão Científica de Exploração (1856) na correspondencia de Guilherme Schuch de Capanema ,2002 A presente Dissertação tem como objetivo destacar as histórias da Comissão Científica de Exploração presentes nas cartas do mineralogista Guilherme Schuch de Capanema - diretor da Seção Geológica e Mineralógica da referida Comissão. Para tanto, tomamos as correspondências trocadas entre os naturalistas integrantes da Comissão como nossa principal fonte de análise, e não apenas como um material complementar a outras fontes. Trabalhando no âmbito da cultura das Viagens Científicas, e baseando-nos nas correspondências de Capanema, identificamos na Comissão os elementos culturais, políticos e sociais presentes nas Viagens Científicas ocorridas até então.
